PHILADELPHIA, October 16, 1911.

Advance Offer of Sweet Peas for 1912,

Including all the desirable varieties—both new and old.

We are acknowledged as

Headquarters for Sweet Peas in America.

 Not bound by these prices after November 30th, and only for quantities so far as accepted.

 For cable words for quantities refer to our GENERAL WHOLESALER CATALOG or 5TH EDITION A. B. C. CODE,—but when convenient we prefer our own code.

Cupids Mixed. Many varieties. (10 lbs. at 3¢ cts. per lb),	<i>Hymn</i>	35

The "Spencer" Type of Sweet Peas.

"SPENCER" SWEET PEAS are a great specialty with us! We were the first to grow the seed in America—the stock having been entrusted to us before introduction, even in England, of the original *Countess Spencer*. We have grown "the original Beauty" and its many "sportive" children with painstaking care each season since. There are but few other growers who can supply an equal assortment of *True RE-SELECTED "SPENCERS"* that are uniformly of such choice quality. Seedsmen and planters generally can see how superior our stocks now are by the trials at FORDHOOK FARMS during June or July, while those who may be in California are invited also to inspect the growing crops at our FLORADALE FARM in the beautiful Lompoc Valley. Every planter's garden, however, is really a trial ground, and we shall be quite content if any "Doubting Thomas" will send us only a portion of his order and note the difference in character of flowers produced!

 You can buy so-called "Spencer" Sweet Peas at half our prices—but the result will be only disappointment—and when in flower you will surely admit that you would gladly have paid even double our prices to have had the BURPEE-QUALITY of the TRUE SPENCER TYPE!

 For Complete List of "SPENCER" SWEET PEAS,—see next page.

Superb Sweet Peas of the "Spencer Type."

We were the first to grow the original *Countess Spencer* (prior to its introduction) in America. By reason of its "sportive character" it has required years of labor to perfect the original "*Countess*,"—but this same tendency "to break" has resulted in giving us a number of colors of which our RE-SELECTED STOCKS now come true from seed and will delight every lover of Sweet Peas. While most profuse in flowering they are very shy seeders and the true "*Spencer*" type can never be produced cheaply.

	Telegraph Code or Cipher.	Per lb.
